

Campus Placement Analysis Report

Student Information

Parameter	Value
CGPA	7.5
Backlogs	0
Certifications	2
Projects	2
DSA Problems	50
Internship	No
Communication Score	65
Mock Interview Score	60

Placement Prediction

Predicted Placement Probability: **29.12%**

Prediction: **May need more preparation**

Student Cluster: **Cluster 1**

Model Explanation (SHAP)

The following features had the highest impact on the model's prediction. Positive SHAP values push the prediction toward placement, while negative values push it toward non-placement.

Feature	SHAP Value
internship	-0.6310
dsa_problems	0.4927
communication_score	-0.4013
backlogs	0.3422
mock_interview_score	-0.3199
cgpa	-0.2509
projects	-0.1451
certifications	-0.1021
branch_Computer	0.0728
branch_IT	0.0603

Personalized Preparation Plan

Area	Priority	Recommendation
CGPA	Medium	Maintain your academic performance and try to improve your CGPA above 8.0.
DSA	Medium	Continue solving DSA problems regularly and focus on improving problem-solving speed.
Internship	Medium	Gain practical experience through internships, live projects or relevant industry work.
Communication	Medium	Continue daily speaking practice and focus on confidence, vocabulary and pronunciation.
Mock Interview	Medium	Practice mock interviews regularly and improve your answers and confidence.

Note: This report is generated using a machine learning model and is intended for educational and placement-preparation purposes. The prediction is not a guarantee of actual placement.
